GEN NEXT. INSIDE OUT.

Presenting
BLOOM DOORS

Doors have been an essential part
of your daily lives since all these
years. Though, you have evolved
and progressed with time;
yet your doors have not.
Its time to Evolve.
Its time for Bloom.

Introducing **Bloom Doors.**

Inspired by —
Rough and Tough India
Sandy and Windy India
Hot and Rainy India
Above all, Noisy India!

Made for You, Made for India.

BLOOM INNOVATION:

International Standards: Bloom is an ISO 9001:2008 Company and has market presence in over 30 countries by pursuing high standards in process, product quality and on-time delivery.

Made for India: Fabricated with climate stability and fire resistance, our doors are made to withstand the extreme weather conditions of India - scorching heat, maximum humidity, torrential rains, floods, and built-in sound insulation for high noise level environments and safe-guard against the fire hazards that part of Indian living and celebrations.

Custom Fit: Bloom is the only manufacturer to offer you doors of international standards customized to your exact measurements. You can simply choose the color, grain and the make, order it in the size you need and pick it up from the store. It's that Simple.

A visit to Bloom is simply having the best of both worlds.

KNOW YOUR DOORS:

— YOU ARE

— YOUR REQUIREMENTS

A
CONSUMER

- Sound resistance
- Fire resistance
- Strength
- Elegance
- Durability

A
BUILDER

- Zero maintenance

BLOOM FRAMES & ARCHITRAVES

Frames and architraves are the essential associates to a door. They add a whole new dimension and are crucial to the form and installation of a door. From a selection of 100% kiln dried wood to either a laminated or veneered decoration, the frames & architraves make a complete door set.

DECORATIVE FRAME AND ARCHITRAVE

SOLID WOOD FRAME WITH ARCHITRAVE

SPECIFICATIONS

Frame Size: Length (mm) – 990, 2210
Section (mm) – 90 x 55, 115 x 55 (Solid wood frame)
Section (mm) – 90 x 32, 115 x 32 (Decorative)

Architrave Size: Length (mm) – 1070, 2290
Section (mm) – 15 x 12

Frames and architraves will be supplied in loose length pieces only and any resizing and installation is to be done at site.

BLOOM DOOR SPECIFICATIONS:

DOORS WITH PERFECT SURFACE

Custom sizes available on request
Resizable: Maximum upto 20mm from any side

FIRE CONTAINMENT DOORS

Bloom offers customized high performance Fire Containment Doors on demand.

1. Fire containment special core with smoke arresting technology

2. Fire protection up to: 30 min & 60 minutes

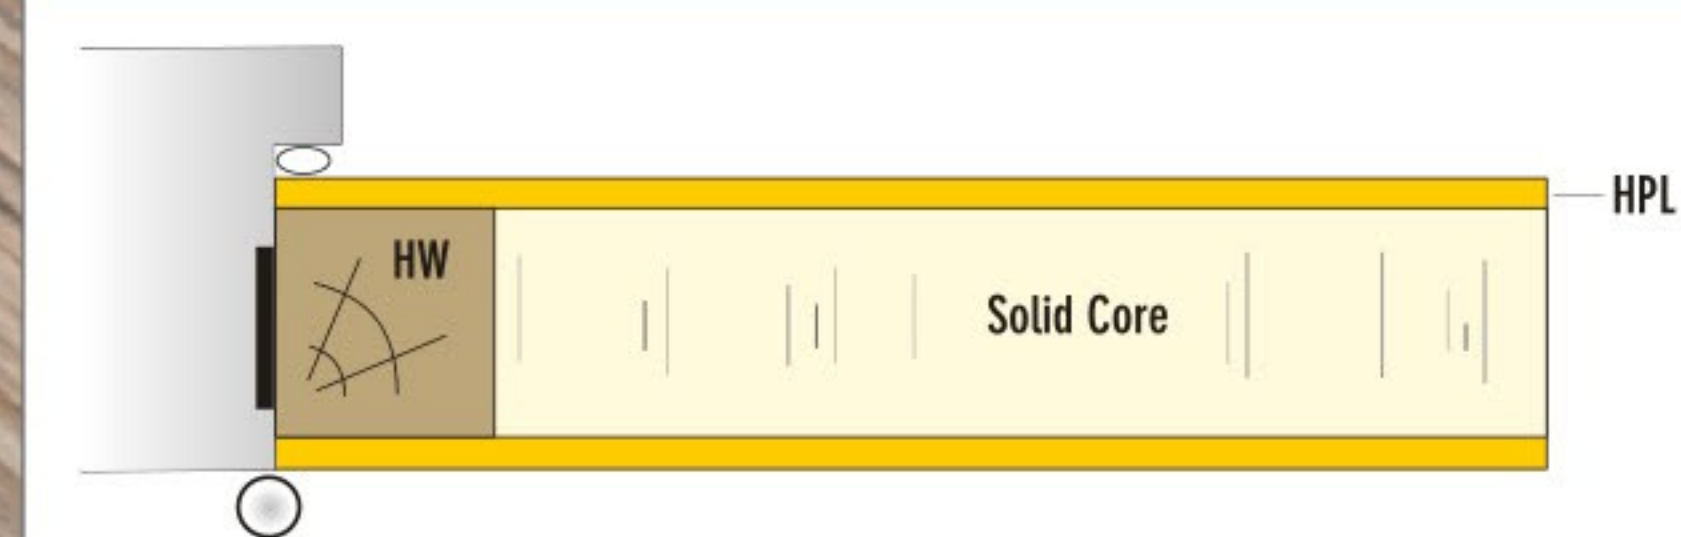

3. Core as per BS 476: Part 22: 1987, or as per IS 3614 part 2 (1992)

4. E1 approved (low formaldehyde level) = Safe for internal use in residential buildings.

5. Sound reduction up to 34dB

6. Light weight & 100% recyclable (No inorganic material like gypsum board, cement board, calcium silicate, fibre glass, etc.)

FIRE CONTAINMENT CORE DOORS:

BLOOM CARE & WARRANTY:

How to clean & care : Cleaning should be carried out with a soft moist cloth and warm soap solution. Do not use detergent containing abrasive particles or excess soda (care and maintenance does not apply to all metallic patterns as they are very sensitive).

“Re-sizing of the door is to be done at site as per the required measurements. The door edges will need to be polished or covered with any suitable material after the re-sizing is done to protect the wood seen on the sides from weather effects”.

CONDITIONS FOR WARRANTY OF BLOOM DOORS

Bloom Dekor warrants that its products are reasonably free from manufacturing defects. It excludes damage resulting from accidents, abuse or lack of care. It is recommended that the product must be inspected prior to installation and our liability will be limited to the cost of the product only. Products are warranted for 1 year from the date of invoice subject to the following conditions:

1. Doors are to be inspected upon arrival for visible defects and any claim arising thereon must be filed within seven (7) working days in writing.
2. Repairs are to be carried out only by the manufacturer and its appointed agents. There will be no reimbursements, for any charges incurred for the repair or replacement of doors without the prior written consent of the manufacturer to such replacement.
3. Warranty shall not be covered when the door is unpacked and found defective and still installed without consent of the manufacturer.
4. The doors conform to IS 4020 tests with the specific use of laminate pressed on either sides of the door and the edges of the door made water proof by either polishing them or painting them with materials that have a water proofing property.
5. The resizable concept doors should not be exceedingly cut to reveal edges of filler material. These can be cut up to a maximum of 20 mm for standard sized doors manufactured. Please get in touch with the manufacturer to confirm the margin that can be re-sized on your laminated doors from either side. Re-sizing the doors more than the margin will void the warranty.
6. Bloom Doors manufactured are of interior grade quality, hence the installation to be restricted to internal use only.
7. The manufacturer shall not be liable for any additional charge for installation, painting, freight or other charges including incidental cost arising from the repair or replacement of the doors.

Note: The images shown in the catalogue are pictorial representations only and the actual colour of the design may vary.
